Re: **Driver Permit Application Changes**

Dear Carrier,

Enclosed are updated Driver Permit Applications that should be utilized effective **IMMEDIATELY**. Please discard all old versions and use the enclosed document moving forward. Please note the following changes have been made:

- The application page 'Employment Information' section has been removed from the application. Replacing this section is a noticing requirement waiver with signature line pursuant to NRS 241.033.
- NRS 706.4622 requires a signature for all child support statements. Based on this requirement, a signature line has been added to the application. This is a required signature.

**Reminders:**

**Driver Permit Revision Applications may only be utilized when:**

- The driver is still employed by a carrier, holds a current NTA driver permit and would like to add additional employers (CPCNs) to their driver permit.
- OR**
- The driver is no longer employed with the original employer, is within 10 days of separation and is going to work for a new company.

**A driver may have up to (4) CPCNs listed as current employer, if all the CPCN's are related to one another. Otherwise, a driver is limited to (3) unrelated certificated carrier CPCNs.**

Please note, if the driver arrives at the Nevada Transportation Authority without the correct application, they will be required to return to their employer to obtain the correct application version.

Electronic versions of the driver permit applications may be requested by calling 702-486-3303 opt. 4 or by emailing your request to [nta@nta.nv.gov](mailto:nta@nta.nv.gov). Applications will only be provided to authorized contacts.

Regards,

A handwritten signature in blue ink, appearing to read "Desirée Main".
